### How it works:

#### Sign up online:

Head to our website > Products and Plans page and sign up.

#### We establish your store:

Within the hour, you'll receive an email with your login details and instructions to get started.

#### Enter or Import your properties:

Either via our easy property interface, or we may be able to arrange an import and ongoing feed from your CRM.

#### Publish your magazine:

Your online web-book loads automatically and you can view it from the link we provide when you first sign up.

If you'd like some printed, you order these at the same time, from the same file. Data is only entered once and you can use it for everything you produce in our portal.

*"The myprint.express online portal has made my job so much easier. I am able to order everything I need online quickly and easily with no fuss or hassle. It is a very user-friendly site and our orders are delivered so quickly! If I ever need to ask a quick question, I can just easily open the online chat box and get onto one of the team members immediately to answer any queries for me. Sandy and her team are always thinking of ways to make things easier. They are a pleasure to deal with, their customer service is second to none and I would highly recommend them for all of your marketing and printing needs."*
